FIRST ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

CITY OF BERLIN, N. H.

FOR THE

YEAR ENDING FEBRUARY 15, 1898,

TOGETHER WITH OTHER ANNUAL REPORTS AND
PAPERS RELATING TO THE AFFAIRS
OF THE CITY.

BERLIN, N. H.:
THE BARNEY PRESS.
1898.

Inaugural Address

DELIVERED BY THE MAYOR HENRY F. MARSTON
MARCH 29, 1897.

It is proper in entering upon our duties of this, the first city government of Berlin, that we should look back and see what our past has been, that we may be able to better lay our plans for the coming year and in doing so may we exercise such candor and good judgment in the formation of our city government as will prove beneficial to all concerned.

Finance.

The first problem that we shall have to consider, is our city finance, and while our predecessors have made a good showing and reduced the debt some \$8,000.00, there still remains a debt in the shape of notes, of some \$69,000.00 to be provided for very soon.

Our town report for 1897 shows our bonded debt to be \$81,000.00.

Our other indebtedness, or outstanding orders, \$159.83. with outstanding orders from January 1st to February 15th, 1897, not reported.

We now come to the matter of assets for our new city to begin business on. While I do not wish to cast any reflections on our method of book-keeping, would it

not be well to see what our assets consist of? First our report shows assets amounting to \$59,971.44.

The first two items are loans to the Board of Education of 1894-95. How is the Board of Education to get the money to pay this loan if not by direct taxation? This being the case, how can this sum of \$6,280 be reckoned as assets?

The next item is a matter of uncollected taxes since 1892. Here we find the sum of \$14,755.48 uncollected up to the time of making up the report. While the different collectors are all responsible men, is it not reasonable to suppose that on account of errors, and unforeseen difficulties which they will have to labor under, that these figures will hardly hold good?

We now come to the Shoe Factory indebtedness to the town of Berlin, as shown by the report to be \$16,324.10, that has been expended up to the present time.

Can this be properly classed as assets? The question arises, when can the city expect to realize anything from that source otherwise than what it may contribute to the public good and prosperity of our city?

This not only leaves our credit side \$16,324.10 short, but we shall have to provide for the interest for at least five years to come.

I shall not attempt to show you the true state of our finance, but think we shall have to admit that the \$22,604.10 reckoned as assets in the last report, does not properly belong there, and should we make a reasonable allowance on the balance, to my mind the whole deficiency will not fall below \$30,000. Allowing these to be the facts you will be called upon to meet the financial situation as it exists.

We need have no fear of showing our financial standing, for we have resources few cities possess, and are able to pay all our indebtedness.

Our valuation last year was \$2,054,646.

• Whole amount of taxes committed for collection \$51,366.08.

Rate \$2.50 on one hundred dollars, or \$25.00 on one thousand.

Our valuation will in all probability be somewhat larger than a year ago, but not enough to meet the growing wants of our city and keep the per cent as low as it should be. I find by looking up the reports of our sister cities in this state that two per cent is the limit of taxation and they have a hard time to pay that.

Few property holders are receiving sufficient income from their houses, stocks and manufactures, to meet taxation at the rate of twenty-five dollars on the thousand.

Under these considerations it will be our duty in making appropriations, to conform to the condition of the city treasury.

Streets.

In repairing and cleaning our streets we shall be able to do the work under different methods from those used in the town system. The work may be divided into departments, or arranged as the city government may see fit. It would seem best for the interest of the city, to set our stone crusher at work, at our earliest convenience that we may have broken stone ready, suitable for repairing our streets.

Taking into consideration that our bridges were thoroughly repaired the last year, and that our culverts are in good condition, the sum of \$6,000 ought to keep our highways in good order the coming year.

Sewers.

As regards sewers, it seems that we shall have to make some extension to our present system, and see that the people connect with the same, and I would recommend a liberal sum for that purpose.

Schools.

The work in our schools the past year shows great improvement. Our present principal and his assistants have been equal to the duties assigned them, while our School Board has met the requirements of our schools in a very satisfactory manner.

Last year the sum of \$7,000 was raised for schools. This with the Savings Bank Tax, Literary Fund, and Railroad tax makes \$8,067.62

Allowing the Literary Fund to be the same as last year, this sum laid out for the best interests of our schools ought to bring good results.

I would recommend that more attention be given to the English branches of study. The learned languages are not necessary for business education, but good penmanship, arithmetic, and grammar are indispensable and should be well learned and understood by our scholars, who are obliged to leave school at an early age, to gain a livelihood in the different vocations of every day life. I believe that I voice the sentiment of the people in making these suggestions. If the recommendations of the school board are carried out we shall be called upon to furnish more seating capacity for our scholars, either in new school houses or in some way suitable to their needs.

Berlin Free Public Library.

Our Free Public Library, under the skilful management of the Librarian and Trustees is one of the permanent institutions of our city. Starting from a small beginning it now compares favorably with any in Northern New Hampshire, giving our people opportunity for study, research and recreation, that they would be deprived of without it. I recommend an appropriation sufficient to continue its present efficient service.

Fire Department.

Our fire department as now constituted, proves to be very efficient. At no time since its organization, has it neglected to respond promptly, and has proved itself equal to the emergency, and I recommend that you make such appropriations as will enable it to continue its present service.

Other appropriations we will consider as we find the conditions require.

Electric Lights.

The Electric Light Company having enlarged the plant will be in a position to light the city in a satisfactory manner and it will be our duty to see that their contract is fulfilled.

Choice of Officers.

I will now call your attention to the appointment of officers for the ensuing year. Regardless of low salaries attached to some of them, there seems to be no lack of applicants. In the choice of men to fill these places you should look for fitness and integrity; men who will expend the money intrusted to them, wisely, and for the best interest of the city.

In the imperfect outlining of our city work many points of interest have passed over that will come up at some future time. In assuming the duties of this office I am conscious of the high honor conferred and the feeling of confidence which this action of our citizens implies. The term of office now before us has in it many possibilities and the record we leave at the end of the year, depends on the way in which we administer the trust committed to us.

May we work unitedly for the prosperity, welfare and honor of our city.

City Government.

BERLIN, N. H.

Inaugurated last Monday in March, yearly. Stated meetings: the first Tuesday of each month, at 8 o'clock p. m.

1897.

CITY COUNCIL.

MAYOR,

Elected March 9, 1897. Salary, \$200 per annum.

HENRY F. MARSTON.

Office: City building, Mechanic St.

COUNCIL,

Elected for three years. No salary.

Ward 1—CHARLES S. CLARKE.

“ 2—FRED M. CLEMENT.

“ 3—H. CHRISTIAN JOHNSEN.

Elected for two years. No salary.

Ward 1—DAVID WALSH.

“ 2—FRANK L. WILSON.

“ 3—LORIN A. DRESSER.

Elected for one year. No salary.

Ward 1—J. FRED BELL.

“ 2—PHILLIPE E. BEAUDOIN.

“ 3—JOHN B. PAQUETTE.

CLERK,

JOSEPH A. LÉTOURNEAU, Ex-Officio.

Elected March 29, 1897.

STANDING COMMITTEES OF THE CITY COUNCIL.

Finance—The Mayor, Councilmen Wilson and Dresser.

Accounts and Claims—Councilmen Clement, Clarke and Beaudoin.

Public Instruction—Councilmen Clement, Beaudoin and Clarke.

A. P. BERGQVIST.Ward 2—GEORGE F. RICH,
JOHN B. GILBERT,
A. P. BERGQVIST.Ward 3—GEORGE F. RICH,
JOHN B. GILBERT,
A. P. BERGQVIST.

Ordinances.

AN ORDINANCE in relation to general provisions of the City of Berlin.

Be it ordained by the City Council of the City of Berlin as follows:

SECTION 1. All by-laws passed by the City Council shall be termed ordinances, and the enacting style which shall be but once recited in each ordinance shall be: "Be it ordained by the City Council of the City of Berlin as follows:"

SECTION 2. All ordinances which shall be passed by the City Council of the City of Berlin shall be endorsed and recorded by the City Clerk in a fair and legible hand, without interlineation or erasure, and in the order in which they shall be passed, in a book to be kept for that purpose, made of strong linen paper, strongly bound, with a proper margin and index, and to be lettered, "Record of Ordinances of the City of Berlin," which book shall be preserved in the office of the City Clerk, subject to the inspection of the citizens of said city.

SECTION 3. All ordinances of the City Council, and such resolutions and orders as the City Council may direct, shall be published in one or more newspapers printed and published in the city as the City Council shall from time to time designate.

SECTION 4. It shall be the duty of the City Clerk to preserve four copies of the ordinances and resolutions hereafter adopted by the City Council by cutting the same from the newspapers in which they are printed from time to time, and pasting them into blank leaves of the revised

ordinances, preserving the numbers thereof, and making reference thereto in the index of said ordinances as recorded in the city records, one copy thereof for the use of the Mayor, another copy for the use of the Council, the third thereof for the use of the City Clerk's office and the fourth copy thereof for the use of the City Solicitor.

SECTION 5. First. The repeal of an ordinance shall not revive any ordinance in force before, or at the time the ordinance repealed took effect.

Second. The repeal of an ordinance shall not affect any punishment or penalty incurred before the repeal took effect, or any suit, prosecution or proceeding, pending at the time of the repeal, for an offence committed under the ordinance repealed.

City Seal.

SECTION 1. The seal of the city shall be circular in form.

Finances and Accountability for Expenditures.

SECTION 1. There shall be appointed at the commencement of each municipal year a standing committee on accounts and claims to consist of three members of the City Council, which committee shall meet at least once in each month and carefully examine and audit all claims and accounts against the city which shall be laid before them, approved as shall be provided in the following section, and shall allow and pass the same if found to be correct and justly due.

SECTION 2. No account or claim against the city except judgments of judicial courts shall be received or acted upon by the committee on accounts and claims unless such account or claim shall be accompanied with the approval of the officer, committee or agent authorized in behalf of the city, to make the contract or cause the expenditure to be made.

SECTION 3. The City Clerk shall receive all accounts and claims from persons having claims against the city which shall have been approved as provided in the foregoing section.

He shall carefully examine all such accounts and claims and see that they are correctly cast, and present the same, folded, filed and numbered, to the committee on accounts and claims.

He shall keep a book in such form and manner as the committee shall direct, wherein he shall enter the date and amount of every account and claim against the city as finally corrected and allowed by said committee, and also the name of the person to whom the same has been allowed designating the fund or appropriation from which the same shall be paid.

SECTION 4. The City Clerk shall also, under the direction of the committee on accounts and claims, keep a book or ledger in which he shall enter the various appropriations made by the City Council, each under its appropriate head, and charge to each the different payments and expenditures which shall from time to time be made therefrom. Whenever an appropriation shall be expended the City Clerk shall give notice to the Mayor, the City Council and to said committee on accounts and claims, and said committee shall pass no claim or account chargeable to any appropriation which has been expended until the City Council shall have provided the means of paying the same. The City Clerk shall open an account with the City Treasurer, charging him with the amount of loans to the city and all sums of money paid to him on behalf of said city, by the collector or other officer or agent of the city, or by any person in any way indebted to the city, and also with all notes, bonds, mortgages or other securities in the hands of the Treasurer, or which may pass into his hands, belonging to the city, to the end that the amount and value thereof may at any time be seen on his books.

SECTION 5. No money shall be drawn out of the city

treasury except upon the written order of the Mayor, addressed to the Treasurer, and countersigned by the City Clerk, and numbered so as to correspond with the account or claim it shall be drawn to pay; and no account or claim against the city, arising from any contract or agreement for labor, or for the purchase or sale of any goods, wares, or merchandise in which any member of the City Council, or any officer or agent appointed by the City Council, or either branch thereof, has been directly or indirectly interested in a private capacity, shall be approved by the committee, nor shall any order therefor be drawn upon or paid by the City Treasurer unless such contract or agreement shall have been authorized or ratified by the City Council; but such restriction shall not be construed to prevent the purchase of ordinary supplies from members of the City Council who may be engaged in trade, nor the employment of the members of the City Council in their ordinary vocation, by duly authorized heads of departments; and no account or claim for the hire of horses or carriages, or for any other thing where the credit of the city has been used, shall be allowed unless incurred by the authority of the City Council, or with the approval of the Mayor, nor unless proper vouchers therefor shall be presented by the person incurring the debt.

SECTION 6. In all bills against the city which shall be presented for payment each item shall be specifically set forth, and no claim exceeding ten dollars in amount shall be allowed and paid unless approved by the City Council. The Mayor is hereby authorized to draw orders on the Treasurer for the payment of all accounts and claims allowed, as provided in this chapter, but he shall not draw an order in payment of any services rendered or any materials furnished for any department beyond the sum specially appropriated therefor by the City Council.

SECTION 7. Any sum of money which shall have been especially appropriated for the payment of principal or interest due on any note or other security of the city, or

for the state and county taxes, may be drawn from the treasury and paid to the order of the Mayor, for the purpose for which it was appropriated, without any action on the part of the committee on accounts and claims; and whenever it shall be necessary to pay money in advance on contracts made, or for work begun but not completed, the Mayor, upon being satisfied of such necessity, may draw his order upon the Treasurer for a sum not exceeding \$500 at any one time, taking security for the same.

SECTION 8. Whenever any money shall be drawn from the treasury for the purposes specified in the preceding section the City Clerk shall report the same and the amount thereof to the committee on accounts and claims at their next meeting, and shall charge the same under the appropriate head of expenditures.

SECTION 9. All city officers who shall in their official capacity receive any money on behalf of the city, shall pay the Treasurer the amount in their hands, once in three months, or oftener if required. All other persons who shall at any time have money in their hands belonging to the city shall forthwith pay the same to the Treasurer.

SECTION 10. In all cases of the payment of money to the City Treasurer he shall give his receipt to the person giving the same, which receipt shall be delivered to the City Clerk and filed in his office, and the City Clerk shall give to the person paying a certificate as evidence of such payment.

All city officers and agents receiving money in behalf of said city shall deliver to the City Clerk, once in three months, a report of the amount received, and what disposition has been made thereof, except in cases otherwise provided.

SECTION 11. The City Treasurer shall keep in a book provided for the purpose a true account of all his receipts and payments for the city, making the same conform in mode of entry as near as may be with the accounts kept by the City Clerk.

He shall not pay any money out of the treasury except upon orders of the Mayor, drawn in the form prescribed in the fifth section. He shall at the end of each six months certify to the City Clerk all amounts by him paid for maturing bonds, interest, state or county taxes, or any other purpose for which he has not received an order countersigned by the City Clerk, and the City Clerk shall enter each of said amounts in the ledger under its appropriate head as provided in section four.

He shall, when required, lay before the City Council a statement of the condition of the treasury and of all moneys received and paid by him on city account. Whenever he is authorized by the City Council to borrow money on the credit of the city, all notes and certificates of indebtedness given therefor shall be signed by the Mayor and the City Treasurer, and countersigned by the City Clerk, and all such notes and certificates shall be registered in books kept for that purpose in the offices of the City Treasurer and City Clerk respectively. Such registers shall describe such notes and certificate by number, date and amount, the name of the person to whom payable, where payable, and the rate of interest, and the date of ordinance or resolution authorizing the same.

SECTION 12. There shall be appointed at the commencement of each municipal year a committee on finance, consisting of the Mayor and two members of the Council, which committee shall negotiate all loans to the city which shall be authorized by the City Council, and shall report the same to the City Treasurer.

SECTION 13. The committee on finance shall at the close of each financial year prepare and lay before the City Council an estimate of the amount of money necessary to be raised for the ensuing financial year, under the various heads of appropriations, and the ways and means of raising the same, and shall also at the close of each financial year prepare and lay before the Council a statement of all the receipts and expenditures of the preceeding financial year,

and in detail the amount of appropriation and expenditure for each department ; and said committee on finance, at the close of each financial year, and before making their annual report of receipts and expenditures, are hereby authorized to transfer from any unexpended balances of appropriations so much thereof as shall be required to supply such deficiencies as have been created by the necessary overdrawing of the other appropriations of the same financial year, and said statement shall be accompanied with a schedule of the property, real and personal, belonging to the city, and the value thereof and the amount of the city debt.

SECTION 14. The committee on finance shall at the close of each financial year, and as much oftener as they shall deem it expedient, examine and audit the accounts of the City Treasurer, and for that purpose shall have access to all the books and vouchers in possession of the City Clerk or any other officer of the city. Said committee shall not only compare said accounts with the vouchers thereof, but shall ascertain whether all moneys due the city have been collected and accounted for. They shall also examine all bonds, notes and securities in the Treasurer's hands, belonging to the city, and make report thereof to the City Council.

SECTION 15. The City Treasurer shall make up his accounts on the 15th day of February, and the financial year shall begin on the 15th day of February in each year.

City Clerk.

SECTION 1. In addition to his duties prescribed by law the City Clerk shall perform such duties in connection with his office as the City Council shall from time to time fix and determine.

City Solicitor.

SECTION 1. The City Solicitor shall act as attorney

for the city in all criminal and civil cases in which the city is interested. He shall, when required by the Mayor and Council, or any officer of the city, advise them on any question of law relating to their business.

He shall receive for his services as such officer such salary as the City Council shall from time to time fix and determine. In all cases where his attendance may be required out of the city reasonable travelling expenses shall be allowed him.

Overseer of the Poor.

SECTION 1. The Overseer of the Poor shall perform the same duties and be subject to the same liabilities as are now prescribed for and incumbent on overseers of the poor of towns, and perform such other duties as the City Council may prescribe. He shall receive such compensation or salary for his services as the City Council may from time to time fix and determine.

Highway Commissioner.

SECTION 1. The duties and liabilities of the Highway Commissioner shall be such as are prescribed by law for highway agent of towns, and such other duties as the Mayor and Council may from time to time require.

SECTION 2. The Highway Commissioner shall receive such compensation for his services as the City Council may fix and determine.

City Civil Engineer.

SECTION 1. The City Civil Engineer shall be under the direction of the City Council. He shall have charge of all plans of public grounds, streets, sewers and main drains of the city, except such as pertain to the city system of sewerage. He shall, by himself or assistants, for whom he shall be responsible, make all surveys, estimates,

measurements and levels, and perform such other duties as may be required of him by the City Council. All books and papers containing files, notes and other memoranda shall be the property of the city.

SECTION 2. The said Engineer shall receive such salary as the City Council may fix and determine.

Board of Health.

SECTION 1. The Board of Health shall have and exercise all the powers vested in, and shall perform all the duties prescribed for health officers of towns as provided by law.

SECTION 2. The Board of Health shall receive such compensation for their services as the City Council may from time to time fix and determine.

Collector of Taxes.

SECTION 1. The duties of the Collector of Taxes shall be such as are prescribed by law for the collector of taxes in towns, and his compensation shall be such as the Mayor and Council may from time to time determine.

Sewers.

SECTION 1. The present system of house sewerage together with any additions to the system which may hereafter be made, shall be under the general charge of an officer to be elected annually by the City Council, to be known as Sewer Commissioner. The said Sewer Commissioner shall be under the direction and control of the City Council in all matters pertaining to the construction, care and management of the system of house sewerage of the city. He shall perform such duties connected with his office as the Council shall from time to time fix and prescribe. He may make such rules and regulations as to the use of said sewers as he shall deem proper, subject to the approval of the City Council.

SECTION 2. He shall receive for his services such salary or compensation as the City Council may determine.

City Marshal and Police.

SECTION 1. The City Marshal shall give bonds in the sum of three hundred dollars (\$300.00) satisfactory to the City Council for the faithful performance of the duties of his office.

SECTION 2. The City Marshal shall perform such duties as are prescribed by law and such further duties as the Mayor and Council may from time to time require. He shall observe all wants and defects of the highways and streets and give immediate notice thereof to the Highway Commissioner, to the end that they may be amended.

He shall lay before the mayor and council once a month, a statement of all offences against the laws of the State and the ordinances of the city, and of all prosecutions instituted by him on behalf of the city, and the result thereof.

SECTION 3. The Marshal and all other police officers and watchmen, when on duty, shall wear such badge of their office as the Mayor and Council shall prescribe.

SECTION 4. It shall be the duty of the City Marshal in addition to his other duties, to ascertain the circumstances of all accidents happening in which the city may have an interest, and all other matters of a similar nature when so directed by the Mayor, and to make a report to the Mayor and City Solicitor of his investigation in each case.

SECTION 5. Should any police officer or watchman fail to comply with his instructions or be otherwise remiss in his official duties, the City Marshal, at his discretion, temporarily, may suspend such delinquent and he shall report the facts in any such case to the city council, and the matter shall, if in their judgment the interest of the city require it, investigate the same without delay, and

reprimand or remove from office any police officer or watchman who may be found guilty of such neglect.

Regulating Billiard Saloons.

SECTION 1. No person shall keep a billiard table, pool table nor bowling alley in the city of Berlin, except for private use, unless a license therefor in writing, specifying the place in which it is to be kept, shall first be obtained from the City Clerk, subject to the approval of the City Council.

SECTION 2. Every person shall pay for such license, for the use of the city, the sum of five dollars on each billiard table, pool table and bowling alley, on or before the first day of May annually, and such license shall be revoked or annulled at the pleasure of the Mayor and Council, and shall be forfeited upon the conviction of the violation of any of the provisions of this chapter. Such license may also on application, be issued for six months from the first day of May, on payment of five dollars, subject to the provisions of this ordinance.

SECTION 3. No keeper of a billiard table shall allow or permit any minor to play at billiards or any other game in his saloon, or to remain therein or in any room connected therewith, except with the written consent of the father or guardian of such minor.

SECTION 4. The violation of any of the provisions of this chapter shall be punished by a fine not exceeding ten dollars, and such an offender shall forfeit his license and be required to keep the peace, and be of good behavior.

SECTION 5. It shall be the duty of the City Marshal to see that the provisions of this chapter are enforced. The fees for license for the current year shall be immediately due and payable.

Passed April 21, 1897.

Approved,
H. F. MARSTON, Mayor.

AN ORDINANCE to regulate the admission of children into the public schools of the city of Berlin.

Be it ordained by the City Council of the City of Berlin as follows:

That pupils who are five years old and upwards shall be admitted to the primary schools only during the first and second weeks of the fall and spring terms; but pupils who are qualified to enter existing classes may be admitted at any time during the school year by applying to the Secretary of the Board of Education.

Passed May 11, 1897. Approved.

H. F. MARSTON, Mayor.

AN ORDINANCE relating to the Fire Department.

Be it ordained by the City Council of the City of Berlin, as follows:

SECTION 1. The Fire Department shall consist of the Chief Engineer, and Assistant Engineer, to be denominated First and Second Engineer and suitable number of hose men, not less than twelve or more than eighteen, to form a hose company, and a suitable number of hook and ladder men, not less than eight or more than fifteen to form a company.

SECTION 2. The Board of Councilmen shall, in case of a vacancy in the Board of Engineers fill such vacancies by appointment, and said engineer shall constitute the Board of Engineers, and shall perform the duties and exercise the power of a fire ward.

SECTION 3. Every Hose Company shall have attached thereto a Foreman and Assistant Foreman, also the hook and ladder company shall have attached thereto a Foreman and Assistant Foreman who must be acceptable to the Board of Engineers.

SECTION 4. No member of the Fire Department

shall hold the office of Marshal, Assistant Marshal or Police officer.

SECTION 5. In case of fire the Chief Engineer shall have the sole and absolute control and command over the Assistant Engineer and all other officers of the Fire Department.

SECTION 6. In the absence of the Chief Engineer the Assistant Engineer next in rank who may be present shall have all the power and perform the duties of the Chief Engineer.

SECTION 7. The foreman of each hose company and the foreman of the hook and ladder company shall at least twice in each month, and also in addition thereto, within twenty-four hours after every fire, see that such fire apparatus as they may have charge of has been operated and examined minutely and carefully report the condition thereof to the Chief Engineer.

SECTION 8. It shall be the duty of the members of the Fire Department upon an alarm of fire to repair to their respective places, place themselves under the Captain in command and obey his orders; and upon receiving his permission, return the fire apparatus to their appropriate places in a quiet and orderly manner.

SECTION 9. The Foreman of each hose company and hook and ladder company shall cause the fire apparatus entrusted to their care, respectively, to be thoroughly cleansed, oiled, washed and securely housed.

SECTION 10. All species of gaming or playing of games of chance, and all disorderly conduct in any hose house, or hook and ladder house, or any room connected therewith, at any and all times is forbidden; and all assembling of persons on the Sabbath in any of the said houses, or rooms, except for the purpose of doing necessary work on the fire apparatus belonging to such house, or room, or of accompanying such fire apparatus to a place of fire or of returning with the same, is also ex-

pressly forbidden and it shall be the duty of the Chief Engineer the or City Marshal to see that the provisions of this section are enforced.

SECTION 11. No hose or hook and -ladder carriage shall be taken to a fire out of the city without permission of an Engineer, nor shall any apparatus of the Fire Department be taken from the city except in case of fire, with permission of the Mayor.

SECTION 12. The Board of Engineers shall examine into shops and other places where shavings and other combustible materials may be deposited or collected and at all times be vigilant in the removal of same, whenever in their opinion the same may be dangerous to the security of the city from fires, and direct the owners, tenants, or occupants of said shop or other places to remove the same, and in case of such owner, tenant, or occupant's refusal or neglect to do so, such person shall be liable to a penalty not exceeding ten dollars (\$10) for such neglect or refusal; and whenever, in the opinion of the Board of Engineers any chimney, hearth, oven, stove-pipe, flue or other fixtures, or any explosive or inflammable fluid or other material, or whatever else may give just cause of alarm, shall be altered, repaired or removed, they, the said Engineers, shall forthwith notify and direct the owner, tenant or occupant of the premises upon which the same are situated to alter, repair or remove the same, as the said Engineers shall direct, and in case such tenant owner, or occupant shall refuse or neglect to do so, the person so refusing or neglecting shall also be liable to a penalty not exceeding ten dollars. Any person who shall obstruct the Engineer, or his assistants, in carrying out the provisions of this section, shall be liable to a penalty not exceeding ten dollars.

SECTION 13. If any person shall wilfully or maliciously injure any of the apparatus owned by the city or shall ride or drive any animal or carriage across any hose

or other apparatus when in use at any fire or any trial thereof he shall be fined not less than five dollars nor more than twenty dollars and shall be required to pay all damages by him caused.

SECTION 14. All factories, hotels, tenement houses, public halls, school-houses and other buildings used as places of public resort in the city shall be provided with ample means of escape in case of fire, and adequate facilities for entrance and exit on all occasions and be so erected as not to endanger the health and safety of persons who may occupy them.

SECTION 15. The Fire Engineers shall constitute a Board for the inspection of the buildings and halls mentioned in the preceding section and shall from time to time inspect the same and after notifying and hearing all parties interested may thereupon direct such alterations in any building or hall as may be necessary by the provisions of said section and may order such building or hall to be closed until such alterations are made.

SECTION 16. Every person aggrieved by any decision of such inspectors may appeal therefrom as provided in Section 5, of Chapter 116 of the public statutes.

SECTION 17. Every person who shall let or use any building for the purposes specified in section 14 of this Chapter after such building shall have been ordered closed or altered, as provided in Section 15, of this chapter, until such order has been complied with, or reversed shall be punished as provided in Section 6 of Chapter 116 of the public statutes.

SECTION 18. For each absence from fire or neglect of duty the Chief Engineer and Assistant Engineers shall be fined one dollar (\$1.00) each, and others who are members of the Department, fifty (50) cents each; provided, however that any fireman liable as above may in case of temporary absence or sickness have power of substitution by giving notice, each Assistant Engineer to the

Chief, each Captain to an Engineer, and each other member to the Captain of his company.

Passed August 3, 1897. Approved,

H. F. MARSTON, Mayor.

AN ORDINANCE relating to Sewers.

Be it ordained by the City Council of the City of Berlin as follows:

SECTION 1. The word "drain," when used in ordinances, shall be Construed to mean a pipe or conduit for the conveyance of storm or ground water; and the word "sewer" when so used, shall be construed to mean a pipe or donduit for the conveyance of sewerage of buildings only.

SECTION 2. To the committee on sewerage, under the direction of the City Council, shall be entrusted the general management and supervision of the public sewers which are now or may hereafter be constructed and owned by the city, or which may be permitted to be constructed or opened by its authority. The appropriations for sewers shall be expended under their direction and they shall have full power to make all necessary repairs, extensions or improvements on said sewers, to procure new sewer pipes, and all other necessary materials, and to make all necessary contracts in connection therewith; but they shall make no contracts nor do any work in excess of the appropriation.

SECTION 3. All connections of house sewers, drains and plumbing work with the sewer system of the city of Berlin shall be made in accordance with these rules and regulations; and no plumbing, house drainage or connection with the sewer by any person not licensed to do such work by the sewer committee.

Application for Licenses.

SECTION 4. Any person desiring to do business as a plumber in connection with the Sanitary Sewer System of the city of Berlin, shall file in the office of the Superintendent of Sewers a petition giving the name of the individual and place of business, and asking to be licensed as a plumber. Said petition must be signed by two responsible citizens of the city of Berlin, vouching for his business capacity and reputation and that he is willing to be governed in all respects by the rules and regulations which are now or may be adopted by the city. No license shall be granted for more than one year, and all licenses shall be granted to expire on the first day of April. The fee shall be two dollars for each license.

SECTION 5. Application for permits to connect with the sewer system or do plumbing work to be connected therewith, must be made in writing by the owner of the property or his authorized agent. Permits to make connection with the Sewer System will be issued only when the plumbing in the house or building to be connected is in accordance with the rules for plumbing hereafter prescribed; and all work done shall be subject to the inspection of the Superintendent of Sewers, and no alteration shall be made in any plan or in any work without a special permit in writing from him.

Statement of Work Done.

SECTION 6. A plumber shall, on the completion of the work, file in the office of the Superintendent of Sewers, on blanks furnished for the purpose, a correct statement of the work done under the permit.

Cesspools.

SECTION 7. No open gutter, cesspool or privy-vault shall be connected with any sewer or drain.

Injury to Sewers.

SECTION 8. No person, firm or corporation shall injure, break or remove any portion of any man-hole, flush-tank or any part of the Sewer System; or throw or deposit, or cause to be thrown or deposited in any sewer opening or receptacle connected with the Sewer System any garbage, offal or dead animals, ashes, cinders or any other thing whatsoever, except fæces, urine, the necessary water-closet paper, liquid house slops, also roof and cellar water by special permit.

Water or Gas Pipe.

SECTION 9. Any person, firm or corporation desiring to lay pipe for water, gas, steam or any purpose in any street, alley or property upon which sewers are laid shall give, at least, twenty-four hours notice to the Superintendent of Sewers and the manner of excavating, laying and backfilling shall be subject to the approval of the Superintendent. All such work shall be planned and executed so that no injury shall occur to any public sewer or drain, or to any house-sewer or drain, connected therewith.

Obstructions.

SECTION 10. The Superintendent shall have the power to stop and prevent from discharging into the Sewer System any private sewer or drain through which substances are discharged which are liable to injure the sewer or obstruct the flow of the sewerage. Before any private drain or sewer shall be connected with the System, the owner of the private drain or sewer shall prove to the satisfaction of the Superintendent that it conforms in every respect to these rules and regulations.

Plumbing Rules.

SECTION 11. Each and every connection with the public sewer shall be first quality, salt-glazed, vitrified pipe not less than four inches internal diameter, which may extend from the sewer to within three feet of the house; and from thence the house drain shall be of cast-iron pipe satisfactory to the Superintendent of Sewers and shall extend upwards full size so that its upper terminus shall communicate directly with the open air in a manner which shall secure perfect ventilation.

No brick, sheet metal, earthenware or chimney flue shall be used as a sewer ventilator nor to ventilate any trap, drain, soil or waste pipe.

Every Fixture Shall be Effectually Trapped.

SECTION 12. No trap or any manner of obstruction to the free flow of air through the whole course of the drain and soil pipe will be allowed. Every fixture shall be effectually trapped. Traps to be as near fixtures as possible and no trap shall be more than three (3) feet from the fixture which it is to serve.

Every fixture having a waste pipe shall be furnished with a Sanitas Anti-Syphon Trap or be vented by special air pipe (of size not less than the waste pipe when there is more than six (6) feet of said pipe) between trap and said pipe. Star or Battle Traps and four (4) inch water-closet traps may be used without venting, if placed on pipe extending through roof, if not more than six (6) feet away.

All vent pipes from the inside of the roof must be at least four (4) inches in diameter. No pan closet to be allowed, and all water closets must have a seat vent of not less than two (2) inches into the kitchen chimney when practicable.

SECTION 13. All soil and waste pipes shall be as

direct as possible, and all parts of the work shall be so arranged that they may be at all times readily examined and repaired. When necessarily placed within partitions or in the recesses of walls, soil and waste pipes must be covered with wood-work so fastened with screws as to be readily removed.

SECTION 14. All joints in iron drain pipes, except when screw joints are used, must be so filled with oakum and lead, and hand caulked as to make them gas tight. All connections of lead pipes with iron pipes must be made with a brass or lead sleeve, or ferruled as large or larger than the lead pipe put in the hub of the branch of the iron pipe and caulked with oakum and lead. The lead pipe must be attached to the ferrule by a wiped or overcast joint.

SECTION 15. The least inclination that can be allowed for the house drains is one (1) in sixty (60) without the written permission of the Superintendent of Sewers. The ends of all pipes not to be immediately connected must be securely closed, water tight, with imperishable material. The inside of every drain after it is laid must be left smooth and clean throughout its entire length.

SECTION 16. The backfilling over drains must be puddled or rammed, all water and gas pipes protected from injury or settling and the surface of the street made good within forty-eight hours after the completion of that part of the drain lying within the public way.

SECTION 17. Any person violating any of the provisions of these rules and regulations shall, upon conviction thereof, be fined not exceeding twenty-five (\$25) dollars for the use of the city of Berlin; and any plumber or drain layer violating these rules and regulations shall forfeit his license.

SECTION 18. The above rules and regulations shall take effect when adopted by the City of Berlin.

Passed September 7, 1897.

Approved,

H. F. MARSTON, Mayor.

Resolutions.

A RESOLUTION in relation to appropriations.

Resolved by the City Council of the City of Berlin, as follows :

Lighting Streets	2,200.00
Salaries	6,000.00
School Books	500.00
Miscellaneous	2,000.00

\$ 53,339.50

Adopted April 21, 1897.

Approved

H. F. MARSTON, Mayor.

A RESOLUTION authorizing the City Treasurer to issue bonds and to redeem outstanding notes.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be, and is hereby authorized to issue bonds to the amount of \$65,000.00 to redeem outstanding notes, at a rate of interest not exceeding four per cent. \$32,000.00 of said bonds to be payable in twenty years, and \$33,000.00 of said bonds to be payable in thirty years.

The redemption of said bonds to be provided for by the creation of a sinking fund of \$1,600.00 each year for the twenty year bonds and \$1,100.00 each year for the thirty year bonds.

The interest on said bonds to be made payable at the National Bank of the Commonwealth, Boston, semi-annually.

Adopted May 4, 1897.

Approved,

H. F. MARSTON, Mayor.

A RESOLUTION relating to the issue of bonds to redeem outstanding notes.

Resolved by the City Council of the City of Berlin, as follows :

That Resolution No. 2, recorded on Page 1, of the city records, passed May 4th, 1897, relating to the issue of bonds to redeem outstanding notes be amended so that the same, when amended, shall read as follows :

Resolved by the City Council of the City of Berlin, that the City Treasurer be, and hereby is authorized to issue bonds to the amount of fifty thousand dollars to redeem outstanding notes, at a rate of interest not exceeding four per cent; that they shall be issued only as valid debts of the city for that amount and shall be paid so that the present debt of the city shall not be increased by the issue of such bonds; that the said bonds shall be pay-

able to bearer and shall be issued under authority and in accordance with the Municipal Bonds Act of 1895, and shall be payable in twenty years; that there shall be raised in each year a sum equal to four per cent of the principal of the bonds outstanding for a sinking fund to pay the same. The Treasurer is authorized to fix the place of payment and the rate of interest, not exceeding four per cent. per annum, of said bonds and to sell the same.

Adopted May 11, 1897. Approved,

H. F. MARSTON Mayor.

A RESOLUTION authorizing the City Treasurer to give notes to hire money to take up outstanding indebtedness.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be and hereby is authorized to hire the sum of fifteen thousand dollars at a rate of interest not exceeding six per cent. per annum, giving in payment notes of the city, for that sum, for the purpose of taking up outstanding notes that cannot be bonded.

Adopted May 11, 1897. Approved,

H. F. MARSTON, Mayor.

A RESOLUTION in amendment of Resolution No. 3, recorded on page 2 of the city records, passed May 11, 1897, relating to the issue of bonds to redeem outstanding notes.

Resolved by the City Council of the City of Berlin, as follows :

That Resolution No. 3, recorded on page 2 of the city records, passed May 11, 1897, relating to the issue of bonds to redeem outstanding notes be amended by striking out the word "and" between the words "amount" and "shall," so that the same as amended shall read as follows :

Resolved by the City Council of the City of Berlin, That the City Treasurer be, and hereby is, authorized to issue bonds to the amount of fifty thousand dollars to redeem outstanding notes, at a rate of interest not exceeding four per cent; that they shall be issued only as valid debts of the city for that amount, shall be paid so that the present debt of the city shall not be increased by the issue of such bonds; that the said bonds shall be payable to the bearer and shall be issued under authority of and in accordance with the Municipal Bonds Act of 1895 and shall be payable in twenty years; that there shall be raised in each year a sum equal to four per cent. of the principal of the bonds outstanding for a sinking fund to pay the same. The Treasurer is authorized to fix the place of payment and the rate of interest, not exceeding four per cent. per annum, of said bonds and to sell the same.

Adopted May 18, 1897.

Approved,

H. F. MARSTON, Mayor.

A RESOLUTION ratifying notes issued by the Town of Berlin.

Resolved by the City Council of the City of Berlin, as follows :

Whereas the following notes of the Town of Berlin, namely :

One note of \$5,000, dated February 8th, 1897 and payable on the 8th day of April, 1897, held by the National Bank of the Republic, Boston, Mass.

One note of \$5,000, dated February 8th, 1897, and payable on the 8th day of April, 1897, held by the New England National Bank, Boston, Mass.

One note of \$10,000 dated February 8th, 1897, and payable on the 8th day of April, 1897, held by the New England National Bank, Boston, Mass.

One note of \$10,000, dated February 8th, 1897, and

payable on the 8th day of April, 1897, held by the International Trust Company, Boston, Mass.

One note of \$10,000, dated February 5th, 1897, and payable on the 5th day of April, 1897, held by the Boylston National Bank, Boston, Mass.

Two notes of \$5,000 each, dated February 15th, 1897, and payable on the 15th day of April, 1897, held by the National Eagle Bank, Boston, Mass., were duly issued payable to the order of the Treasurer of said town, under authority of votes of the town and the proceeds thereof were duly used for the lawful purposes of the town and were funded and paid by the \$50,000 bond heretofore authorized; Resolved that the said notes were the valid and binding obligations of the City of Berlin and the payment thereof is hereby ratified and confirmed and the said bonds are hereby declared to have been duly and regularly issued.

Adopted May 25, 1897. Approved,

H. F. MARSTON, Mayor.

A RESOLUTION in relation to the enforcement of the Prohibition Laws of New Hampshire.

Resolved by the City Council of the City of Berlin, as follows :

That the City Marshal be and is hereby instructed to enforce the Prohibition Laws of New Hampshire to the letter until otherwise ordered by the Council.

Adopted June 1, 1897. Approved,

H. F. MARSTON, Mayor.

A RESOLUTION to hire money in anticipation of taxes for the year 1897.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be authorized to hire the sum of five thousand dollars to defray the expenses of the several

departments of the city for the year 1897, in anticipation of taxes, and is hereby authorized to give the notes of the city in payment of the same for that amount.

Adopted June 1, 1897.

Approved,

H. F. MARSTON, Mayor.

A RESOLUTION authorizing the purchase of land of the Daniel Green Land Company for Hose House, Lock-up and Police Court room purposes.

Resolved by the City Council of the City of Berlin, as follows :

That the Committee on public buildings be authorized, empowered and instructed to take, in the name of the city a deed of land of the Daniel Green Land Company as per recommendation of the Mayor, and that the sum of six hundred and sixty dollars be hired on notes or notes of said city to pay the same.

Adopted June 8, 1887.

Approved,

H. F. MARSTON, Mayor.

A RESOLUTION authorizing the City Treasurer to borrow money, in anticipation of taxes.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be authorized to hire on the credit of the city the sum of two thousand dollars (\$2,000) to pay current expenses for the month of June, 1897, at a rate of interest not exceeding six per cent. on four months' time.

Adopted July 6, 1897.

Approved,

H. F. MARSTON, Mayor.

A RESOLUTION authorizing the Treasurer to borrow a sum of money not exceeding three thousand five hundred dollars (\$3,500) for building city lock-up, court room, offices, and moving hose house.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be, and hereby is, authorized to borrow on the credit of the city a sum of money not to exceed three thousand five hundred dollars (\$3,500) for a term not exceeding eighteen months, at a rate of interest not to exceed five per cent. per annum, for the purpose of constructing a city lock-up, court room, offices and hose house, and to give the notes of the city for the same.

Adopted July 6, 1897. Approved,

H. F. MARSTON, Mayor.

A RESOLUTION authorizing the Treasurer to borrow a sum of money not to exceed six thousand dollars (\$6,000) to purchase land of the Berlin Land & Building Company for school house lot, and to build a building thereon for school purposes.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be, and hereby is, authorized to borrow on the credit of the city the sum of six thousand dollars (\$6,000) for a term not to exceed two years, at a rate of interest not exceeding five per cent per annum, for the purchase of land of the Berlin Land & Building Company for a school house lot, and to build a building thereon for school purposes, and give the notes of the city for the same.

Adopted July 6, 1897. Approved,

H. F. MARSTON, Mayor.

A RESOLUTION authorizing the purchase of land of the Daniel Green Land Company for hose house purposes.

Resolved by the City Council of the City of Berlin, as follows :

That the Committee on Public Buildings be authorized, empowered and instructed to take, in the name of the city, a deed of land of the Daniel Green Land Com-

pany, and that the sum of two hundred and twenty-four dollars be hired on note or notes of said city to pay for the same.

Adopted September 7, 1897. Approved,
H. F. MARSTON, Mayor.

A RESOLUTION to hire money in anticipation of taxes for the year 1897.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be authorized to hire the sum of five thousand dollars (\$5,000) to defray the expenses of the several departments of the city for the year of 1897, in anticipation of taxes, and is hereby authorized to give the note or notes of the city in payment of the same for that amount.

Adopted October 5, 1897. Approved,
H. F. MARSTON, Mayor.

A RESOLUTION authorizing the City Treasurer to give notes to hire money to take up outstanding indebtedness.

Resolved by the City Council of the City of Berlin, as follows :

That the City Treasurer be and hereby is authorized to hire the sum of fifteen thousand dollars (\$15,000,) at a rate of interest not exceeding six per cent. per annum, giving in payment notes of the city for that sum, for purpose of taking up outstanding notes that cannot be bonded.

Adopted November 2, 1897. Approved,
H. F. MARSTON, Mayor.

Orders.

AN ORDER, to move two electric lights on Main Street, in Berlin Mills Village.

Ordered, That the Berlin Electric Light Company immediately move the electric light that stands near Berlin Falls Fibre Company's gate, at Berlin Mills, about one hundred feet to the end of First Street, also the electric light that stands near the old boarding house one hundred and twenty-five feet to the end of Third Street of said village.

Passed May 6, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER, to build a new sidewalk on Mechanic Street.

Ordered, That the Highway Commissioner commence immediately to build a sidewalk on Mechanic Street, commencing at Whitney Opera House, ending at the Grist Mill owned by John Goebel, said Highway Commissioner to get the assistance of the City Civil Engineer in laying out of the same.

Passed May 11, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER, to lay out and build a new street on north-westerly side of School Street to be known as Dupille Street.

Ordered, That the City Civil Engineer lay out a new street in said city beginning at the iron pin placed at the intersection of the northerly side of School Street so called,

with the easterly side-line of the high school lot, thence with a bearing of North fifteen degrees and thirty minutes East (N. 15°-30' E.) one hundred and sixty (160) feet, to a post and stone being the most northeasterly corner of the said High School lot.

It is further ordered that as soon as the City Civil Engineer has completed the laying out of said street, the Highway Commissioner shall immediately proceed to build the same.

The petition, order and hearing on said street are a part of 1896 records.

Passed May 11, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to lay out and build a new street at Berlin Mills, the same being an extension of Seventh Street.

Ordered, That the City Civil Engineer commence at once to lay out a new street from Norwegian Street so called, to Denmark Street, so called, also Seventh Street in Ward 3, and we further order that the Highway Commissioner commence the building of said street immediately after the City Civil Engineer has completed the laying out of the said street.

Passed May 11, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to lay out and build a new sewer on Main Street opposite the convent.

Ordered, That the City Civil Engineer immediately commence to lay out a sewer starting in front of the Convent, running in Pleasant Street to connect with the sewer in said street, to accommodate residents of Church, High and School Streets.

It is further ordered that when the City Civil Engineer has completed the laying out of said sewer, the Sewer

Commissioner will at once commence the building of the same.

Passed May 11, 1897. Approved,
H. F. MARSTON, Mayor.

AN ORDER to lay out and build a new sewer on Western Avenue and Stearns Street.

Ordered, That the City Civil Engineer immediately commence to lay out a sewer starting on Stearns Street near the residence of A. H. Eastman. The said sewer to follow the natural course of a small brook passing behind the residence of said A. H. Eastman, thence as far along the course of said brook as he may deem necessary.

It is further ordered that when the City Civil Engineer shall have completed the laying out of said sewer, the Sewer Commissioner shall at once commence the building of the same.

Passed May 25, 1897. Approved,
H. F. MARSTON, Mayor.

AN ORDER to lay out and build a new street beginning at the junction of Willard and State Streets.

Ordered, That the City Civil Engineer immediately commence to lay out a new street, beginning at the junction of Willard and State Streets and running in a north-westerly direction, to point twenty-five feet north-easterly of the residence of James Malloy in said city.

It is further ordered that when the City Civil Engineer shall have completed the laying out of said street, the Highway Commissioner shall at once commence the building of the same.

Passed June 1, 1897. Approved,
H. F. MARSTON, Mayor.

AN ORDER to lay out and build a new street on Berlin Heights to be known as Spruce Street.

Ordered, That the City Civil Engineer immediately commence to lay out a new street, beginning on Berlin Heights so called, at the point of intersection of Spruce Street and Hillside Avenue as shown by plan "A" and description of same made by E. McCourt Macy, in the month of August, 1891, and recorded in Coos Registry of Deeds, Volume 55, Page 399, thence northerly, along and over said Spruce Street, following the line of same as projected on said plan "A" to land set apart for a public park and marked "park" on said plan.

It is further ordered that when the City Civil Engineer shall have completed the laying out of said street, the Highway Commissioner shall at once commence the building of the same. The cost of building the said street not to exceed fifty dollars (\$50).

Passed May 11, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to lay out and build a new street to be known as "Jolbert Street."

Ordered, That the City Civil Engineer immediately commence to lay out a new street, beginning at an iron pin on the southerly side-line of Green Street, so called, nearly opposite the dwelling house of Alexander King, thence in a westerly direction past the dwelling houses of Charles and George Jolbert, over the land for a street between blocks 32 and 40 of the Berlin Heights Addition to the intersection of said street with Broad Street, as per plan of said Berlin Heights Addition.

It is further ordered that when the City Civil Engineer shall have completed the laying out of said street, the Highway Commissioner shall at once commence the building of the same.

Passed May 11, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to lay out and build Hemlock Street.

Ordered, That the City Civil Engineer immediately commence to lay out a new street, beginning at an iron stake set in the ground on the westerly side of Hillside Avenue, so called, in said Berlin, and near the residence of Louis LeClare, and thence running northerly to a point twenty-five feet east of the residence of Dennis Mooney in said Berlin.

It is further ordered that when the City Civil Engineer shall have completed the laying out of said street, the Highway Commissioner shall at once commence the building of the same.

Passed July 6, 1897. Approved,
H. F. MARSTON, Mayor.

AN ORDER to place three hydrants on Main Street (Gorham Road.)

Ordered, That the Berlin Aqueduct Company immediately place three hydrants on Main Street (Gorham Road,) one to be placed near the Machine Shop of E. M. Cross.

It is further ordered that the said hydrants shall be placed under the direction of the Committee on Sewers and Water.

Passed August 3, 1897. Approved,
H. F. MARSTON, Mayor.

AN ORDER to lay out and build a new street to be known as Pine Street.

Ordered, That the City Civil Engineer immediately commence to lay a new street, beginning at a point fifty feet south of a yellow birch tree situated on the north-westerly boundry of Pine Street as per plans of the Berlin Land & Building Company and Berlin Heights Addition, in said Berlin, and west of residence of Duncan Haggart, and running in a southerly direction to a point twenty-five feet west of the house now occupied by Levi Croteau.

It is further ordered that when the City Civil Engineer shall have completed the laying out of said street, the Highway Commissioner shall at once commence the building of the said street.

Passed May 11, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to lay out and build Hutchins Street.

Ordered, That the City Civil Engineer immediately commence to lay out Hutchins Street from a piece of gas pipe in the center of highway, at the turn of road east of Highway Bridge crossing the Androscoggin River at S. E. Paine's, to a piece of pipe 220 feet south-east of Blanchard & Twitchell Company's store at the turn of the road.

It is further ordered that when the City Civil Engineer shall have completed the laying out of said street, the Highway Commissioner shall at once commence the building of the said street.

Passed September 9, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to place one electric light on the corner of Portland and High Streets.

Ordered, That the Berlin Electric Light Company immediately place an electric light on the corner of Portland and High Streets.

Passed November 2, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to place one electric light on Church Street.

Ordered, That the Berlin Electric Light Company immediately place one electric light on Church Street, near the residence of Irving Twitchell.

Passed November 2, 1897.

Approved,

H. F. MARSTON, Mayor.

AN ORDER to place one electric light on Prospect Street.

Ordered, That the Berlin Electric Light Company immediately place one electric light on Prospect Street, near the residence of James B. Perkins.

Passed December 7, 1897. Approved,

H. F. MARSTON, Mayor.

Department Reports.

REPORT OF THE CITY CLERK.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:-

The following is an account of the money collected by me for the city, and the sources from which the same was received:

DOG LICENSES.

Female dog, 1 at \$5,	\$ 5.00
Male dogs, 60 at \$2,	120.00
	<hr/>
	\$125.00
Less fee deducted by City Clerk, 61 licenses at 20 cents,	12.20
	<hr/>
Amount paid City Treasurer,	\$112.80

OTHER LICENSES.

Peddlers licenses, 2 at \$10,	\$20.00
Circus, merry-go-round and auctioneer licenses,	49.00
Billiard and pool table licenses, 9 at \$5,	45.00
	<hr/>
Amount paid City Treasurer,	\$114.00

PLUMBER LICENSES.

G. E. Bouthet,	\$ 2.00
E. A. Burbank,	2.00
W. H. Moffett,	2.00
H. E. Blaisdell,	2.00
M. W. M. Devitt,	2.00
	<hr/>
Amount paid City Treasurer,	\$10.00

Respectfully submitted,

J. A. LETOURNEAU, City Clerk.

REPORT OF THE TAX COLLECTOR.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

I herewith submit my report as Collector for fiscal year 1897, which is as follows:

Amount committed for collection for fiscal year	
1897,	\$55,111.35
Amount collected,	41,239.47
Amount interest collected,	45.75
Amount of abatements,	129.71
Amount still due the city,	13,871.90

Respectfully submitted,

J. A. LETOURNEAU, Collector.

REPORT OF HIGHWAY COMMISSIONER.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

It becomes my duty as Highway Commissioner to submit a report of the work done under my supervision during the past year.

It has been the policy of the department to make all improvements of as permanent a character as possible, yet there are many charges, such as breaking out roads, sanding and cleaning side-walks, opening gutters, etc., which, while absolutely necessary for the convenience and safety of the public, leave nothing to show for the money expended. Besides, nearly \$1,000 of the regular appropriation was used in the purchase of an engine to run the stone crusher, and for tools, repairs, etc.

You will also bear in mind that we had many heavy rains last spring which caused a large amount of damage to our streets in different sections of the city, so that it took hundreds of loads of gravel to make them passable.

During the year nearly all the streets outside the city proper have been machined and put in very good shape; and in many places old plank culverts removed and stone ones put in. Nearly every street in the city proper has been graded and repaired, and some of them twice on account of wash-outs and rain. Some of the streets have been cut down and the gravel used to fill others where needed.

The bridge on Main Street, by Stahl block, has been re-planked; also the one by Gerrish block re-planked and new stringers put in. The stone abutments under Horne bridge on east side of river were washed out and had to be re-built.

The bridge across the Androscoggin near S. E. Paine's will have to be re-planked in the early spring, and what more is necessary cannot be told until the work is commenced. The expense will not be less than \$500 if properly repaired. The iron bridges leading to the B. & M. depot should be tightened up and painted.

There are many places on our streets where good substantial railings are needed.

We have built eight new streets during this year, four of them in Ward 3, three in Ward 2, and one in Ward 1. Most of these streets were graded twenty feet wide and stone culverts put in where needed. The longest and most costly of these was Hutchins Street, starting from Blanchard & Twitchell's store on the east side of the river and connecting with Milan road near Joseph Lavertu's, a distance of over one mile. The street was graded twenty feet wide, four good stone culverts put in, and a substantial wooden bridge with stone abutments built across Bean brook. The entire cost was about \$1,400.

An item of big expense in building these new streets was the blasting out of ledges.

During the year the stone crusher was moved from the Narrows to a large pile of stone near the shoe factory and about 1200 loads of stone crushed. Most of this was used on Main street. I would recommend starting the crusher early in the spring and after thoroughly repairing Main street use crushed stone on many of our side streets. I consider the expense but little more than buying gravel and the result in roads far better. And later in the season the crusher should be moved to Berlin Mills and the macadam continued from the pumping station as far as the appropriation would allow. By thus doing a little each year we could soon have good roads.

The side walks of the city are in very bad condition, many of them being old plank walks which should be replaced by something more substantial and safe. Most of the plank walk between Berlin Mills and the Falls has

been removed and a foundation for concrete put in. This should be concreted early in the spring, as the travel between the two places demand a good walk.

There has been set 518 feet of new 18 in. curbing at a cost of \$372.80; also 336 feet of old curbing has been dressed and re-set at a cost of \$115.40. All of this on Main street. Many of our side streets are very much in need of side walks.

Having in view the best interest of the city, I would recommend that the appropriations be large enough to make a substantial showing in macadam roads and the much needed improvement in side walks.

I would also recommend that the city purchase two more side walk snow-plows making one for each ward in order that the walks be cleaned without delay after each storm.

During the coming year a surface sewerage should be commenced in order to avoid many of the difficulties that have been encountered in the past, such as the overflow of water on High street and on School street near corner of Church street.

I have received from Chick Bros. for coal \$18.60; from Louis Roderick for coal \$5.95; from Marsh Chamberlin for street waste \$8.00; from C. P. Day for street waste \$3.20; from Mr. Causier for same \$3.00. All the above amount will appear in the Treasurer's report.

A great point in having good roads is the care of them after they are built. This is not expensive but it is every day work.

In conclusion I desire to return my thanks to his honor the Mayor, to the City Council, and to the committee on streets and side walks, for their courtesies and consideration in dealing with matters relating to the highway department.

Respectfully submitted,
O. W. FERNALD,
Highway Commissioner.

INVENTORY OF PROPERTY.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

In accordance with the law governing this department I have the honor herewith to submit my annual report for the year ending February 15th, 1898, giving in detail the amount of insurance paid and the amount of loss.

There have been during the year sixteen fires and four false alarms.

Jan. 24, Mrs. A. J. Mason, dwelling, store and bank. Loss on building \$90; insurance paid \$60; loss on contents \$30.50; insurance paid \$30.50.

Feb. 15, Samuel Dickinson, dwelling and store. Loss on building \$1,100; insurance paid \$1,100; loss on contents \$300; insurance paid \$300.

Feb. 28, L. J. Coté, stores. Loss on building \$1,300; insurance paid \$1,000; loss on contents \$1,200; insurance paid \$1,200.

April 9, Bacon & Furbish, dwelling. Loss on building \$240; insurance paid \$240.

July 11, Berlin Mills Company, lumber and grist mill. Loss on building \$22,000; insurance paid \$22,000; loss on contents \$46,544.88; insurance paid \$46,544.88.

Aug. 22, John Campbell, dwelling. Loss on building \$1,100; insurance paid \$600; loss on contents \$400; insurance paid \$400.

Aug. 24, Arthur Lavigne, dwelling. Loss on building \$30; insurance paid \$30; loss on contents \$54.85; insurance paid \$54.85.

Aug. 26, A. W. Walters, tenement and stable. Loss on building \$30; insurance paid \$30.

Nov. 11, Charles A. Sinclair, hotel. Loss on building \$2,300; insurance paid \$2,300; loss on contents \$615.25; insurance paid \$615.25.

Nov. 11, F. F. Bisbee, steam laundry and barber shop. Loss on building \$2,500; insurance paid \$1,900; loss on contents \$1,900; insurance paid \$1,000.

Nov. 11, Wilson heirs, dwelling. Loss on building \$56; insurance paid \$56; loss on contents \$15; insurance paid \$15.

Nov. 19, John Goebel & Co., grist mill, loss on building \$3,000; insurance paid \$2,000; loss on contents \$4,000; insurance paid \$2,000.

Nov. 19, Lyman McGivney, house finishing. Loss on building \$2,000; insurance paid \$12.50; loss on contents \$3,000; insurance paid \$1,250.

Nov. 20, U. Auclair, farm dwellings. Loss on building \$1,100; insurance paid none; loss on contents \$200; insurance paid none.

Total losses \$95,156.38

Total insurance paid 86,030.48

This department consists of Hose Co. No. 1, Fred R. Oleson, Captain; Hose Co. No. 2, H. Martinson, Captain; Hose Co. No. 3, J. N. Record, Captain; Hook and Ladder Co. No. 1, W. L. Evans, Captain.

FIRE ALARM TELEGRAPH, LOCATION OF BOXES.

No. 13 Grover's house, Berlin Mills.

15 Corner of Main and Second streets, Berlin Mills.

21 Prospect street, near Porter's house.

23 Corner of High street and Hillside avenue.

24 Corner of High and Pleasant streets.

25 Corner of Main and Mason streets.

31 Corner of Green street, near Berlin Savings Bank & Trust Co.

32 Near J. M. Lavin's house, Mt. Forist street.

- 34 Corner of Green street and First avenue.
- 42 East side of river near Boston & Maine depot.
- 35 Near E. M. Cross' machine shop.

DIRECTIONS TO GIVE AN ALARM.

Pull down handle once and let go.

SIGNALS.

- I—Test signal, which is struck every day at 12.30.
- I I—Given after an alarm denotes "fire out."
- I I-I I—School signal. Struck on stormy days at 7.45 a. m., and 11.45 a. m., denotes "no school."
- I I I I I—Second alarm.
- I I-I I-I I-I I—I—Constitutes a general alarm.

CORPORATE WHISTLES.

Glen Manufacturing Company ——— — — —
 Berlin Mills Company — — — —
 Burgess Sulphite Fibre Company ——— ——— —
 Berlin Falls Fibre Company ——— — —

The Hose company has twelve men and the Hook and Ladder company eight men. Hose companies No. 1 and 2 are conveyed to and from fires with livery horses.

I would respectfully recommend that the city purchase 600 feet of 2 1-2 inch rubber lined hose, also arrange better facilities for conveying hose, owing to the large amount of hose that is required to reach different localities in the city.

I think that it has become necessary that there should be different apparatus procured for such purposes, as our present apparatus is in very poor condition.

The cost for the Fire Department for the year will be found in the report of the City Clerk.

I take this opportunity to extend our sincere thanks, in behalf of the Board of Engineers, to the members of the Fire Department for the promptness with which they have discharged their duties during the past year. I also thank

the members of the City Government for the kind assistance rendered this department during the past year.

Respectfully submitted,

GEO. A. PORTER,

Chief Engineer of Fire Department.

SEWER DEPARTMENT.

REPORT OF SEWER COMMISSIONER.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

Owing to the depression of business which has pervaded this country the past year and especially this city, very few connections have been made with the sewers and very little money expended in plumbing compared with other years. The sewer which was extended to Western avenue did not prove to be a success, as very few connections were made with the sewer. Those that were made were well taken care of with the old sewer. There are many houses that ought to be connected with this sewer. Some connections could be made with very little expense.

The extension of the ten inch sewer under the mill pond at Berlin Mills was expensive, but I believe it is a perfect job and will not have to be troubled for years to come, being lined with cast iron pipe and the joints caulked with lead and oakum.

Several places I have had gravel hauled to cover the sewer pipe where it froze during the winter of 1896-7, so thus far we have had no trouble.

The High street sewer, from the junction of Hillside avenue and High street, ought to be re-laid, so as to take in the houses at the upper end of High street. This will be expensive as it is about all ledge. This sewer should be not less than eight inches.

On the east side of the river near the B. & M. depot there will have to be a sewer to take sewerage from a large

number of houses built the past season. This sewer ought to be laid large enough to take the sewerage from these houses for some time as more buildings will doubtless be added the coming year.

Respectfully submitted,

E. A. BURBANK,

Sewer Commissioner.

REPORT OF THE CITY ENGINEER.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

GENTLEMEN:—The following public works have been laid out by me, under the orders of the Mayor and Council, during the past year:

NEW STREETS.

Seventh Street, extension to Denmark Street, length 500 feet, width, 50 feet.

Willard Street, extension to Malloy's, length 1266 feet, width 50 feet.

Spruce Street, length 574' 6 feet, width 40 feet.

Second Avenue (in Jolbert Street record), length 123' 7½ feet, width 30 feet.

Jolbert Street, length 397 feet, width 40 feet,

Hemlock Street, from Hillside to agreed line, length 45' 6 3-4 feet, width 37' 4½ feet.

Hemlock Street, from agreed line west, length 749' 11½ feet, width 50 feet.

Hutchins Street, from Blanchard's to near Paine's Bridge, length 6130' 1¼ feet, width 50 and 40 feet.

Total length 9786' 9 feet.

In addition to these, orders have reached me for a new sidewalk on Mechanic Street and a laying out of Pine Street, neither of which has been acted on, as the Highway Commissioner was not ready to construct them.

NEW SEWERS.

I have laid out the following sewers:

Pleasant Street, from Chamberlain's to Convent, 717 feet 3 inches; 8 inch.

Western Avenue to Main Sewer, near Glen R. R.,
1018 feet 5 inches; 10 inch.

Total length 1735 feet 8 inches.

Also a change of location of the sewer which formerly emptied into the river under the Berlin Mills saw-mill.

RE-ESTABLISHMENT OF STREETS AND MARKING OF STREET LINES.

I have also re-established the street running along the easterly line of the High School lot; laid out in 1896, and known as Dupille Street; also part of the line of Main Street from opposite Lambert's house to the lower Glen cottage, on the Gorham road. I have endeavored so to establish all new streets that they may be re-located at any time with the least possible trouble, by placing at all angles and bounds in the side lines, iron monuments, wherever possible, and referencing these carefully to stone foundations of surrounding buildings, or at least to the corners of woodwork. This saves the trouble of establishing the centre line in order to locate lots fronting on the street. All street and other surveys have been made with especial care and accuracy this year, in fact, as accurately as possible, without incurring the heavy expense of the methods employed in large cities, which would be greater than the present value of land in town justifies.

PERAMBULATION OF BERLIN AND MILAN LINE.

In addition to this work I have perambulated the line between Berlin and Milan, in company with the selectmen of the latter town. The last mile had to be left, in consequence of its running through very thick bushes, which were, at the time, so laden with snow that it was almost impossible to run the compass.

PLANS.

Besides recording reports of all work done with the City Clerk, I have the originals of all plans made within

the year for the City, and which are City property; also a book for the use of the City Engineer, containing attested copies of all reports made to the City Clerk. I have recorded, along with descriptions of new streets and sewers, plans of most of them, showing references, etc.

SUGGESTIONS.

In handing in this report for the year, I should like to make a few suggestions as to matters that appear to need attention in the near future.

NEW PLAN.

First. In regard to a complete and accurate plan of that part of the city occupied for building purposes. There are at present two plans of the town, one compiled in 1890 by E. C. Jordan, of Portland, from plans of the property of the three companies then located here, all made from different surveys, at different times, strung together by a partial survey of Main Street by the late J. A. Pike, and some surveys, more or less complete, of the lower parts of the town, and made by W. C. Perkins. The other is on a smaller scale, made in 1894 in the office of Pike, Perkins & Macy, and being a reduced copy of the former one, with all the later additions to the town and such corrections as could be made, without extensive new surveys. A map put together in this way must of necessity be inaccurate, as it is practically impossible for different surveyors, at different times, to work from exactly the same points unless they have permanent and well-established monuments to run from, which was not the case here. In addition to this, Mr. Pike's surveys, both on Main Street and on some of the land company's plots, were made with compass, at best an uncertain instrument and never very accurate.

NEW SURVEYS.

To make a complete and accurate new survey of the town would be a work of considerable expense, perhaps

two or three thousand dollars. I would recommend the appropriation of a moderate sum, say \$500.00 yearly, out of which the small expense of locating new streets and sewers might be taken, and the balance applied to making such surveys for a map as the appropriation would allow of, and plotting on to a permanent and accurate one, both such work as is newly laid out and the results of these surveys. By spreading such work over several years the results of a large amount of surveys, made by the corporations and by private individuals, could be worked into the map, which could, in four or five years, be made very complete and accurate.

LOCATION OF STREET LINES, NAMING STREETS AND NUMBERING.

Another matter which needs attention, and which would work in with the last, is the careful location of street lines, naming of streets and numbering of buildings. Only a very small proportion of the streets in town have been officially laid out and the descriptions recorded, and of these many of the records are altogether wrong and impossible to locate on the ground without running altogether off the occupied road. On School Street, for instance, the uncertainty of location of the starting point and the discrepancy between record and occupation led to a law suit in which the referee found that, in fact, no street existed, and it was impossible to locate it with certainty. This is only one instance among many where it is impossible to follow the old records and at the same time keep in the streets. There is no record of the old part of Green Street as being a country road; the record was destroyed when the court house was burned. The city ought also to have a definite laying out of the square in front of the Berlin Savings Bank. This, I understand, at present belongs to the Green Estate, there being no record of any appropriation of it by the town.

NAMING STREETS.

At present there are several streets that go by two names, and one or two cases where the same name has been used for several streets in different parts of the town. We have made a practice this year of assigning a name to each new street laid, but it would be a great convenience to have all the established and occupied streets known by definite names on an official and recognized plan.

NUMBERING BUILDINGS.

The numbering of buildings, or lots, on the streets is another matter which could be worked out on a new and correct map. In Laconia they assign a number to each 25 feet of the street, measured on the centre line, in streets not occupied by business, and to each $12\frac{1}{2}$ feet in business streets. A house or store is numbered according to the space on the centre line opposite which its door comes, and the City Engineer has printed forms of notice to abutters of the number that belongs to their building, and requiring them to place the same on the door within a certain time.

RECOMMENDATIONS FOR SEWER CONSTRUCTION.

Without wishing to criticise departments which were placed under other superintendence during the past year, I trust that, in time, the Council will realize the advantage of laying new sewers accurately to grade and line. I am convinced that if this method were given a fair trial the city would find that the work cost practically no more. While there have not been very many troublesome instances of stoppage of the sewers, such cases are likely to become more frequent as they become more heavily loaded, and, when such an accident does occur, it frequently happens that the sewer has to be dug up and broken into in two or three different places, while if the pipe were laid carefully to line and grade and lamp

and inspection holes put in in proper places, it would often be possible to draw a swab or float through and cleanse the sewer without digging at all. Besides this, every crook and inequality of grade affords of course one more opportunity for the lodgement of dirt, rags, or other solid matter, and consequent stoppage of the sewer. Another great advantage, would be the accurate knowledge of how deep to go to find the pipe, and the exact spot to dig, in order to find it and connections.

STREET GRADES.

A matter, that has several times been brought to my attention, is that of establishing a definite grade for the streets, especially Main Street, in order to enable intending builders to plan carefully, on the height of their first floors above the ground. In order to do this properly, it would be necessary to run new levels, as the old set run in 1850, for use in planning the sewer system, cannot be located with sufficient accuracy, and the grades of the streets have since been changed, in many places. This might also be done by degrees, as occasion required, but ought to be done accurately, and in sufficiently large stretches to enable an easy grade line to be established, and avoid having to put in short jogs, to connect two grades, that don't fit well together. The possibility of an electric road being built, in the near future, must also be taken into account.

FORM OF NEW PLAN.

Now as to the form of a new plan of the city. The present form of a single plan cannot be made on a large enough scale, to show names of owners and other essential details, without becoming unwieldy in size, and I think the most convenient way would be, to have an atlas of sheets, of large scale, showing details, and accompanied by a small scale general map, showing only the streets and general outlines, and indicating how the

large sheets go together. I understand that some such plan as this is adopted in the City of Portland, Maine.

METHOD OF SURVEYING.

In making surveys to locate the streets, for such a plan, a valuable check could be used, by a system of triangulation, using the street lines as bases, and establishing thereby the positions of a number of conspicuous points, on buildings etc., which could be tied into the detail surveys of the part of the city, where they are located, and would very quickly show where errors had occurred, so that they could easily be corrected.

VALUE OF PLAN.

Plans such as these would be of very great assistance to the assessors, and could be made sufficiently accurate to record in the County Registry office, and by a convenient system of numbering the different lots used to deed from.

Trusting that this report, and the suggestions I have made, will meet with your approval, I beg to subscribe myself,

Respectfully,

ERNEST MCC. MACY,
City Engineer.

CITY MARSHAL'S REPORT.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

GENTLEMEN—I have the honor to submit for your consideration the first annual report of the City of Berlin Police Department commencing April 6th, 1897, to Feb. 15th, 1898.

ARRESTS AND CAUSES.

Arrests, males	532
do. females	29
do. on warrants	246
do. without warrants	315
<hr/>	
Whole number of arrests	561

CAUSES OF ARRESTS.

Assault	9
Aggravated assault	2
Assault and battery	6
Assault with intent to kill	1
Breaking and entering	6
Brawl and tumult	4
Bastardy	1
Breaking the Peace	1
Common drunkard	1
Common seller of spirituous liquor	9
Disorderly	1
Drunk and disorderly	21
Disorderly conduct	3
Discharging firearms in public places	1
Drunkenness	207
For out-of-town officer	5

False pretense	1
Fast driving	1
Fornication	6
Forgery	2
Gambling	9
Embezzlement	1
Indecent exposure	1
Keeping malt liquor for sale	157
Keeping spirituous liquor for sale	48
Keeping gambling house	3
Keeping house of ill fame	1
Indecent conduct	1
Larceny	23
Non-payment of tax	1
Obstructing police officer	5
Peddling without license	2
Rude and indecent conduct	2
Ringing false fire alarm	1
Simple assault	5
Selling mortgaged property	1
Selling spirits to minors	3
Suspicion of robbery	3
Throwing stones	2
Taking horse without leave	1
Violation of game law	2
Vagrancy	1
Whole number of persons furnished lodging	422

PROPERTY LOST AND STOLEN.

Amount of property reported lost and stolen	\$194.00
Amount of property recovered	175.00

INCIDENTAL SERVICES.

Complaints investigated	590
Disturbance quelled without arrest	300
Stores found not secured	29
Teams stabled at expense of owner	4
Nuisances reported to Board of Health	30

Dogs killed	2
Lost children restored to parents	2
Tests of fire alarm given	255
Dangerous places in streets and sidewalks reported .	26
Windows found not secured	6
Vicious dog notice served to owner	1
Lewd women driven out of town	3
Fire arms taken from boys	1
Gambling stopped	2
Stolen teams restored to owner	2
Unlicensed dog notices served to owners	56
Fast driving stopped	3

ORGANIZATION.

The organization of the department at present is as follows: City Marshal, Assistant Marshal, 2 Patrolmen and 25 Special Reserve Officers. During the past year Assistant Marshal Alexander has resigned and Patrolman Lambert was appointed in his place.

CONCLUSION.

By reference to the detailed report of arrests it will be seen that there has been no crime of a very serious nature committed in the city during the past year. This is commendable, and reflects credit upon the community. I would say that during my connection with the department I have endeavored to administer the affairs of my office faithfully, impartially and economically. However well I have succeeded, however, is for the good people of Berlin to decide.

I wish to extend my thanks to His Honor, Mayor Marston, and the members of the City Council for the many acts of kindness and assistance they have rendered the department, and all others who have in any way assisted me in the discharge of my duties; also the members of the Police Department, for the prompt and efficient manner in which they have discharged their several duties. I would acknowledge my obligations to Committee on Police, Councilmen

Wilson, Clarke and Paquette, Judge George F. Rich, City Clerk J. A. Letourneau, for the courteous treatment received at their hands; also to City Solicitor Wm. H. Paine, whose wise council has been of great value to me.

Respectfully submitted,

JOHN T. YOUNGCLISS,

City Marshal.

CITY SOLICITOR'S REPORT.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

I have the honor to submit my report, it being the first annual report of the law department of the city.

When I assumed the duties of the office, I found no suits pending against the city, and I am pleased to say there are none to-day. During the year a claim was presented to the Council for damages received from alleged defects in plank side walk leading to Berlin Mills. Upon investigation I found the question of the liability of the city open to such doubt that I advised the payment of \$50 in settlement of the contemplated suit. There are now two claims, one being that of Mrs. Hardy and the other that of Frank Lord, for alleged injuries to the person of Mrs. Hardy and the property of Mr. Lord, occasioned as they claim through a defective condition of the highway leading to Milan, now pending. Upon investigation I was led to believe that no injury was occasioned by any defect in the highway, and so advised the Council.

I do not consider it necessary to give in detail the amount of work performed in this office, but some idea of the amount done will be seen by an examination of the report of the City Marshal. The office has been a source of profit to the city. Instead of paying several hundred dollars to different individuals for making complaints and warrants the city has been paid, for complaints and warrants made in this office, a sum much in excess of the salary of the office.

As would naturally be supposed in the formation of a city governed by those who had formerly no experience,

numberless questions have arisen requiring an answer for which there was no precedent. This condition has involved a vast amount of labor and time. All questions submitted have been answered as soon as possible, due care being taken that there should be no mistake in judgment or law.

I desire to thank the Council for the courtesy extended to and apparent confidence in me.

Respectfully submitted,

WM. H. PAINE,

City Solicitor.

REPORT OF BOARD OF HEALTH.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

The Board of Health submits the following report for the year ending February 15, 1898.

There was no appropriation of money for the health department. All bills contracted by us have been rendered to the City Clerk with our approval, and have been paid by the order of the City Council. For an itemized account of our expenditures you are, therefore, referred to the financial report of the City Clerk.

At the beginning of the year provision was made for getting rid of the waste material of the city by establishing dumping stations without a locked gate and without toll, only asking the users of the same to dump over the ledge into the river. As this has not always been done some expense has been necessary to keep the dumping stations clean.

We recommend a continuation of this plan, "free" stations with "open gates," believing that when we ask citizens and property owners to promptly cart away all refuse and waste material, the city should furnish proper stations "free."

Our expenditures have mostly arisen from the unusual number of cases of contagious diseases requiring quarantine, including the expense of special guards or police officers, medical attendance upon those without a physician and who are unable to pay for the same, medicines furnished including antitoxine for diphtheria both as cure and prevention, materials and chemicals for house and clothing fumigation, labor for fumigation, the medical supervision of quarantine, and lastly, grocer-

ies and supplies for poor families under quarantine. The families receiving aid made necessary by the city's quarantine we do not consider as "paupers," and we have supplied their absolute needs instead of allowing them to receive help from the Overseer of the Poor. For we think the city through its health officers has no moral or legal right to make "paupers" by act of quarantine. In thus furnishing necessary supplies and attendance, we have complied with our instructions from the State Board of Health.

For some special remarks and recommendations we invite your attention to the following subjects:

CONTAGIOUS DISEASES.

It is the imperative duty of the Board of Health to use its best efforts to limit the spread of contagious diseases. This can be successfully done only by the prompt assistance and hearty co-operation of all attending physicians and the public generally. During the year it has several times happened that diphtheria and scarlet-fever cases have existed for a week or longer before they were known to us. No precautions having been taken, many were exposed and consequently a large number of cases have occurred. This has caused serious apprehension. It has seriously interrupted the work of our public schools and interfered with the legitimate transaction of business. The regulations issued by the State Board of Health require attending physicians and householders to immediately report to the local health officers every case of contagious disease known to them, and the statute law says the attending physician shall immediately make this report. If we state the facts we shall be compelled to say that the attending physician has not always complied with this law. The section reads: "It shall be the duty of every physician who attends upon any person infected with the small-pox, the malignant cholera, diphtheria, scarlet-fever, or other

malignant pestilential disease, to immediately report the same to the Health Officers or Selectmen of the town. And if any physician shall neglect to do so he shall forfeit the sum of one hundred dollars, to be recovered by Health Officers or Selectmen in the name of the town." (Pamphlet Laws, 1887). Comment is unnecessary. We are pleased to add, however, that this censure applies to only a limited number of physicians. To those who have kindly co-operated with us in our efforts, we make just acknowledgement and render our sincere thanks. Especially to the families quarantined, who have so kindly submitted to all the inconveniences imposed by our requirements we return our grateful appreciation. One great difficulty in stopping the spread of contagious diseases is the fact that many mild cases occur which are concealed by the family. They will not call a physician unless obliged to, for they say "if we do we shall be shut up."

These mild cases recover. No cleansing or fumigating of houses and clothing is done, and soon other cases arise by contagion. These concealed cases are discovered when it is too late to use proper precaution. The only remedy for this difficulty which we can suggest is as follows: We suggest and recommend that the City Government pass a special ordinance of "sanitary regulations," drafted by the Board of Health, which shall contain an article requiring that every case of sore throat or rash shall be immediately, either examined by the family physician, or reported to the Board of Health, that a medical examination may be at once made.

SEWERS AND SEWER CONNECTIONS.

From investigations made during the year, we have found on our main streets a large number of houses not connected with the public sewers. We have given legal notices to the property owners to make sewer connections. We believe in extending our sewer system as fast as we

can, but we do not believe that it is a good business policy for the city, after spending many thousand dollars in constructing sewers, to permit property owners to continue the use of ancient conveniences which have become public nuisances, with a sewer passing near the house. We recommend that all parties having received such notices make sewer connections in the early spring.

Respectfully submitted,

C. N. HODGDON,	}	Board of Health.
FRANK BROWN,		
J. J. COBB,		

REPORT OF THE OVERSEER OF THE POOR.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

GENTLEMEN:—During my five years of service as Overseer of the Poor for Berlin I have never had so many applications for assistance at this season of the year as at present. Our paupers are increasing rapidly, and I am somewhat at loss to account for this, unless we have more people than we can give employment to. Our conditions are about the same as in 1897. During the summer a great many families moved into the city, and as soon as cold weather came out-door work was greatly diminished, leaving a large number out of steady employment. Our city pauper bill is somewhat larger than last year. The principal reason for this is, as each year passes more people are gaining a permanent residence here, thus making the city liable for their support instead of the county. I present only the report for the "City Poor," as the report for the "County Poor" is made to the Commissioners.

In the case of Calixte Lambert children their guardian made application to me for the support of six of them, and they are boarded at a parochial school in Lewiston, Me., for \$12.00 per month. Six of them. This I consider a very satisfactory arrangement. During the year I have taken twenty-four (24) persons to the county farm at Stewartstown, and several more will go shortly. At present Berlin is well represented at that institution. It is very seldom practicable to remove any city cases there, as it is much cheaper to help or support them at home. As in the cases of Sam Audet and Widow Guilmette families.

Our county bills will be somewhat larger than last

year. The principal causes for these cases are sickness and accident.

A great many transient men are coming into Berlin from the lumbering sections for treatment, and if taken sick here without means they must receive aid. It often seems hard for us to do this, but our pauper laws are such that we must help them. These cases are unusually expensive.

A large number of men have gone out of town looking for work, knowing that their families would be looked after during their absence.

The commissioners have appointed a county doctor for Berlin at a fixed salary. This has been a great saving in the county bill.

It would be impossible for me in this report to give particulars in each case. Space does not permit, neither do I consider it necessary.

The work has been done in the most economical and humane way, and although in some cases I have been extremely careful, yet I do not believe any deserving person who has asked for aid has suffered.

Respectfully submitted,

A. B. FORBUSH,

Overseer of the Poor.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

The Trustees of the Public Library herewith present their fifth annual report.

We would call your attention to the great increase in circulation this year, as compared with last. The demand for books of all classes has never been equalled. The use of the library for the schools has been very marked this year, especially by the pupils of the High School. Two classes in history visit the rooms regularly twice a week, or oftener, and do much research among the books dealing with English and with United States history. The library seems to be a necessary part of the High School.

A large number of volumes having been added, and the shelf room fast filling up, it will not be long before additional room will be required. Just how this may be obtained in the present quarters is not an easy problem to solve. There are at present nearly 2500 volumes in the library. The utmost capacity is about 3500 and this limit will be reached in three or four years, possibly sooner.

The library has been of much use to the literary clubs of the city, and the department of English literature has been enlarged, many valuable volumes having been added. The daily circulation has become so large the time of two persons is necessary to meet the demand, and an assistant has been employed during the entire year.

The reading room is well patronized as heretofore and used as a study by the classes in history. It is not large

enough for its purpose, but will answer very well for the present.

The trustees are under obligations to the Berlin Independent for many daily papers for this room, and to many individuals for gifts of subscriptions to magazines. These are well thumbed before being put away and show the appreciative spirit on the part of the public.

We give below our recommendations as to amounts needed for the coming year.

Rent of rooms, heat, etc	\$175.00
Librarian	200.00
Lights	60.00
New books	200.00
Incidentals, new fixtures, etc	100.00

\$735.00

The first three items above are charges subject to no reduction. It will be seen that the rent is placed at \$175, while the past year it has been \$100. The advance is due to the addition of the reading room, the rent of which the past year was paid in advance from funds given a year ago especially for use in the reading room. This year the rent will have to come out of the annual appropriation.

The public library was established March, 1893. First opened to the public November 22, 1893. Delivery Monday, Wednesday and Saturday afternoons from 2 to 5, and every evening except Sunday from 7 to 9.

Mrs. C. S. Clarke	1
H. Maude Clark	1
Hattie L. Johnston	1
City of Manchester	1
" Laconia	1
Society of Colonial Wars	1

The figures representing donated and purchased books are somewhat misleading. A portion of those donated were purchased with money given by Mrs. H. J. Brown and by the Glen M'f'g Co. On the other hand the money given by Mrs. Brown and by the Glen Co. appears in the financial statement as a part of the \$195.38 expended for books. Thus it appears as if \$195.00 were expended and only 91 books bought with the sum, which is not correct. A more accurate statement would be that \$75 has been presented and expended for books classed among those donated, and \$120 has been expended for books the past year. Of this sum about \$25 was an outstanding bill of last year which was overlooked, and the books purchased with this sum appears in the last report. This leaves \$95 expended this year for 91 books, which is about the average cost for that number of volumes. Some valuable and expensive books have been added, particularly in the reference department. A large num-

ber of books are waiting in the bindery for the covers, and will be in their places on the shelves by the time this report is issued. There has been a steady but limited demand for catalogues, and I would recommend the issue of a classified list of books added since the catalogue was published, uniform in style with the same.

At the annual examination of the books, one was missing. One other is unaccounted for, but cannot be considered lost as yet.

Respectfully submitted,

HATTIE L. JOHNSON,

Librarian.

SCHOOL DEPARTMENT.

REPORT OF THE BOARD OF EDUCATION.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

The Board of Education herewith submits its report for the year ending Feb. 15, 1898. Although sickness has greatly interfered with the general conditions of our schools, we think no one will question, that the year just closed has been one of success in all departments. We fully realize that our schools are not all models, still we have credited testimony that they rank among the best in the state. The course of study is carefully planned for thoroughness and comprehensiveness, and while efficient superintendence could nearly double the practical value of results now obtained, still, by the expenditure of much time in supervising, the conditions are such that all schools work in harmony, and the work of each is carefully scrutinized at all times, and more is being accomplished at present, there is a greater degree of thoroughness, and the interest in the work, of both teachers and pupils, is deeper, than in any previous year during our connection with the schools.

HIGH SCHOOL.

The attendance in this room is somewhat smaller than last year. There seems to be a feeling abroad that the studies taught here, the work done, is impractical, of little use in daily life. Whether this be true or not depends wholly on the boy or girl concerned. If a boy's highest aim is to earn \$1.25 per day and to be of no use to anyone outside a meagre support of a family; if a boy is

content to forever do menial labor for others who prefer something which pays better, and is more congenial;" if he prefers to be merely a "hewer of wood and drawer of water," then it is useless for him to enter the high school. There is work and plenty of it, for persons who cannot write their own names, but it is work which does not pay well, and unfortunately there is always a crowd of applicants for it, who are good for little else. The boy or girl with any ambition, who desires to get the most and best there is out of life, who wishes to be a help to others, to be of use, to take a high place in the community in which he lives, to earn ten dollars to one earned by an unschooled laborer, cannot afford to be without the advantages of a high school education, either those accruing from the studies only, or those resulting from the mental training due to the exercise of the mind on those studies.

Other things being equal, the high school graduate everywhere leads those who have not been so favored. Of course difference in energy, inclination to work, change this. A lazy man seldom succeeds where an energetic one will, by sheer indomitable pluck overcome obstacles of ignorance and win in spite of his handicap. We feel that as years pass on, the true value of an education will be more widely recognized and the number of pupils in our high schools will then bear a reasonable proportion to the population of the city.

GRAMMAR GRADES.

For the first time, in our knowledge, the eighth and ninth grades are doing their proper work. Heretofore, poor work in the lower grades has so hopelessly fettered classes on reaching these grades, that it was useless to attempt the studies laid out for them, and the time has been spent in doing again work that should have been left behind in preceding years. Your committee have endeavored to strengthen this weakness in the intermediate grades, and we feel free to say that as long as the present standard is

maintained, there need be no 'patching' done in upper classes. The evil in past years was not so much the fault of teachers as of grouping. It has been proved that certain grades need, respectively, the whole of a teacher's time, that to combine two or more in one room is to make the work so superficial that little or nothing is accomplished.

PRIMARY GRADES.

The foundation is laid in these schools, and the Board accept no teachers in this work, who have not been especially trained for it. We have not hesitated to search at any distance or in any field, for the best that is to be had for the money, in any grade, and particularly is this true of the primary positions. We consider our lowest grades equal to any in the state, and by our present system of training we hope to maintain this standard. There are, at present, three young ladies, well qualified, studying and practicing our methods under the direction of our primary teachers. The present success of two graduates from the training department last year is one of the strongest arguments for the continuance of this branch of our school system.

ACCOMMODATIONS.

This perplexing problem is partially solved for the present. Owing to a misunderstanding, the erection of one additional school building this year has necessarily been postponed until next season. A lot of land 160 feet square has been secured, in an elevated, healthy location, on the corner of Willard and Pine streets, and it is expected that a four room building, to meet all the requirements of to-day, will be erected there as soon as the season will favor its construction. Lacking these rooms this year a partition has been thrown across one room in the high school building, making two inconvenient, poorly-lighted, ill-adapted rooms, both of which are full. The recitations on one side of the partition are audible on the other,

and the difficulties of teaching under such conditions may be imagined.

By placing a gentleman as principal at Berlin Mills, we were able to consolidate two grades in that building, thus saving the expense of one teacher. A vacant room resulted, and we are now conveying one entire grade from Wards one and two (lower village) to that building at a daily expense of \$1.50, there being absolutely no accommodation for these pupils nearer home. At present, several rooms have more pupils than they will seat, but this has become now a common condition, and teachers and pupils look upon it as a necessary evil, work as well as possible sitting in chairs with no desks, on settees, or wherever there may be a chance, and find no fault.

DRAWING AND MUSIC.

These two subjects now form a permanent part of our regular course through the nine grades. Music has been taught in the school some seven years, its position is established, and very few would care to have it removed from the curriculum. It is expected that the director of this department will give an exhibition in the early spring, at which we shall have an opportunity of judging results. Such an exhibition will also served as a strong incentive to better work in the future. Music and drawing in the schools are the only means most of us have of coming in touch with the two most elevating and refining influences, which are often so woefully lacking in manufacturing communities.

The drawing taught in our schools is the drawing required in every-day life properly done, in which both hand and eye are trained, the pupil learns accuracy, the development of ideas, and the art of giving another person an exact representation of an original idea. It is the drawing of the artisan, not of the artist; it is eminently practical, not a toy accomplishment, and its utility is always kept in view.

Statistics are appended, showing facts of interest regarding the schools. It is needless to add that your Board of Education has endeavored to keep the school in pace with the progressiveness of the times.

W. H. JOHNSON,

A. G. MASON,

C. P. KIMBALL.

STATISTICS AND REMARKS.

REPORT OF THE TRUANT OFFICER.

BERLIN, N. H., FEB. 15, 1898.

To the Board of Education:

I have the honor to submit the following report of my official work for the past three months ending Feb. 15, 1898:

Number of public schools	15
“ “ complaints from teachers	112
“ “ calls on parents	30
“ “ cases of absence investigated	67
“ temporarily confined in lock-up	7
“ children found absent without good reason	46
“ found to be truants	13
“ found employed contrary to law	6
“ truants returned to school	13
“ put in school as result of officer's work	25

In most schools of the city but little trouble is experienced from genuine truancy. I find some of the schools are more or less interrupted by absence which is either truancy or a worse type of absence even, caused by the indifference of parents. It is through fear of the law and the efforts of the truant officer that a fair attendance can be secured in such cases.

It is an evil that affects all schools to a much greater extent than is generally supposed. Boys stay out to carry in wood, etc., do chores, to go on errands, and consider this a sufficient excuse for absence. They even stay away from school to attend a baseball game, to sell papers, to go on an excursion, and some stay in bed until it is too late to attend the forenoon sessions, and a variety of other

things of a similar nature, as though school was a matter of secondary importance. I hope that parents and guardians, and all who are interested in our schools, will exert an influence to lessen this kind of absence and thus increase the chances of success.

It is with pleasure that I now have this opportunity to thank the members of the Board of Education for their kindness to me during the past three months.

Respectfully submitted,

JOHN T. YOUNGCLISS,

Tenant Officer.

POLICE COURT.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

GENTLEMEN:—I herewith beg to submit a report of the Police Court of the City of Berlin for the year ending Feb. 15, 1898:

REPORT OF THE FINANCE COMMITTEE.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

GENTLEMEN—The reason of the increase of indebtedness over 1897, is from the fact that \$26,190.52 of the \$59,571.44 considered as assets were entirely worthless and unavailable as assets, as will be seen by the following figures :

Board of Education	\$ 6,280.00
Shoe factory	16,324.10
John B. Gilbert 1893 abatement taxes	900.81
John B. Noyes, 1894 " "	1,465.30
Cyrus Doe, 1895 " "	1,220.31
	<hr/>
	\$26,190.52

Expended for the year 1897 as city property :

City building	\$5,232.39
Lot and plan for school building	1,213.74
	<hr/>
	\$ 6,446.13
	<hr/>
	\$32,636.65

Respectfully submitted,

HENRY F. MARSTON.	} Finance Com
LORIN A. DRESSER.	
F. L. WILSON	

AUDITOR'S REPORT.

BERLIN, N. H., FEB. 15, 1898.

To the City Council:

I have carefully examined the books and accounts of the several officers for the year ending February 15, 1898, and find the same correctly cast and properly vouched.

I find that the amount due the city on unpaid taxes for 1897, is \$13,917.65, instead of \$13,871.90, as reported by your collector, the difference being accounted for in the fact that he added the amount of taxes and the interest collected and subtracted the total from the amount committed leaving \$13,871.90 as the amount due. This, I understand, has been the practice in years past by many collectors, who wished to make as good a showing as possible. The amount is small, but should have been credited to interest account and reduced that account that much. Otherwise from this I think that the City of Berlin can show a perfect set of books. The system is plain and comprehensive. Your officers have been systematic and careful, and if, in the future, they or their successors will use the same care, we can show as fine a set of accounts as any city in the state.

Respectfully submitted,

W. A. BOOTHBY,

City Auditor.
